Vinayaka Eswaraiah

Passport: Y5627640 | **Work permit:** Indian, German | **Date of birth:** 07/08/2001 | **Place of birth:** Davanagere, India | **Nationality:** Indian | **Gender:** Male | **Phone number:** (+49) 15510577095 (Mobile) | **Email address:** vinayakae000@gmail.com | **Website:** https://github.com/VinayakaE | **LinkedIn:** https://www.linkedin.com/in/vinayaka-eswaraiah-84a450215/ | **Address:** Bregstraße 3, 78120, Furtwangen im Schwarzwald, Germany (Home)

WORK EXPERIENCE

ASSOCIATE BACKEND DEVELOPER – CALIPER BUSINESS SOLUTIONS – 26/08/2024 – 31/01/2026 – BANGALORE, INDIA

- Engineered and deployed CRED APIs for a real-time tracking system, enhancing operational visibility and efficiency while utilizing Postman for rigorous testing to ensure reliability.
- Resolved critical client issues through targeted database operations and managed the development lifecycle using Git and Docker, ensuring optimal data integrity and user experience
- Lead the development of handling database operations to resolve client issues and used Git, Docker, and Postman for version control, containerization, and API testing

ASSOCIATE DATA SCIENTIST – CALIPER BUSINESS SOLUTIONS – 16/10/2023 – 25/08/2024 – BANGALORE, INDIA

- Built and deployed predictive models leveraging machine learning algorithms to address business challenges and enable data-driven decision-making.
  - **LINK** - **SYSTEM-SUGGESTED-PRICE**
- I implemented numerical models to optimize warehouse stock levels and designed algorithms for clustering, enabling efficient vehicle assignment, reducing excess inventory, and streamlining delivery operations.
  - **LINK - EDD-Planner**
- Designed interactive dashboards in Looker to track key operational and business metrics, giving stakeholders self-serve visibility into performance.
- Wrote MySQL queries to produce recurring MIS reports for clients, turning raw operational data into clear, decision-ready insights.

FREELANCE(WEB DEVELOPER) – D-TECHNO , SAVORINGMINDS – 01/05/2025 – 31/08/2025 – BANGALORE, INDIA

• s**avoringminds.in**: Developed and deployed a full-stack website for a mental health startup, implementing a responsive design and secure contact forms to enhance user engagement and client acquisition. Link - **savoringminds**

• **dtechno.in**: Engineered a modern, performance-optimized website for a tech solutions provider, utilizing WordPress and custom CSS to strengthen their online brand identity and showcase their service portfolio effectively. Link - **D-Techno**

DATA ANALYST(INTERN) – CALIPER BUSINESS SOLUTIONS – 16/08/2023 – 15/10/2023 – BANGALORE, INDIA

- Worked with Holistics, and MySQL to query and extract data for analysis and reporting.
- Prepared MIS reports and built interactive dashboards in Looker to present key business insights.

EDUCATION AND TRAINING

01/07/2019 – 01/08/2023 Davangere, India

BACHELOR OF ENGINEERING Visvesvaraya Technological University(Bapuji Institute of Engineering and Technology)

Website https://vtu.ac.in/ | **Field of study** Computer Science and Engineering | **Final grade** 7.65 CGPA

01/03/2026 – CURRENT Furtwangen im Schwarzwald, Germany

MASTER OF SCIENCE Hochschule Furtwangen University

Website https://www.hs-furtwangen.de/ | **Field of study** Artificial Intelligence and Data Science for Digital Business Management |

Final grade 1.8

PROJECTS

01/04/2026 – 15/06/2026

Freight price project (FreightIQ) | Master's Project, HFU

- Built a data enrichment pipeline that geocoded locations (LocationIQ, Photon, OSRM), resolved destination states, corrected distances and standardized city and state names across 386K+ shipment records.
- Benchmarked 5 regression models using MAE, RMSE, R^2 and MAPE, and selected XGBoost as the best performer.
- Applied hyperparameter tuning to the final model to reduce prediction error, and presented the business impact in a Looker Studio dashboard.

15/05/2026 – 20/06/2026

Computer vision project (MIDV-500) | Master's Project, HFU

- Built an end-to-end ID document pipeline using U-Net with a ResNet34 backbone for document segmentation and perspective rectification to straighten the detected documents.
- Extracted text from the rectified documents with PaddleOCR and ran the full pipeline on the complete MIDV-500 dataset.

SKILLS

Associate Data scientist

Python (computer programming) | Knowledge of Looker, PowerBI and Qlik | Microsoft Excel | MySQL | machine learning

Associate Backend Developer

Back-end (Flask, Django) | REST API | MongoDBCompass | Python | VS Code
